

TRAVACOR

120 Vegetable Capsules

Small,
easy to
swallow
capsule

BENEFITS

Our best-selling inhibitory formula, TravaCor is designed to provide superior support for GABA & enhance serotonin neurotransmission.

EFFECTS

- Decreased anxiousness
- Improved sleep quality

KEY INGREDIENTS

- 5-HTP
- Taurine
- Suntheanine® (L-theanine)

Supplement Facts

Serving Size 3 Capsules
Servings Per Container 40

	Amount Per Serving	% DV
Vitamin C (as ascorbic acid)	40 mg	67%
Vitamin B6 (as pyridoxine HCl & pyridoxal 5'-phosphate)	9 mg	450%
Folate (as folacin)	200 µg	50%
Vitamin B12 (as methylcobalamin)	30 µg	500%
Magnesium (from magnesium glycinate)	200 mg	50%
Zinc (from zinc picolinate)	10 mg	66%
Selenium (from selenomethionine)	70 µg	100%
Amino Select 3™	900 mg	†
Taurine, 5-hydroxytryptophan (from <i>Griffonia simplicifolia</i> seed extract), and Suntheanine® (L-theanine)		

* Percent Daily Values (DV%) are based on a 2,000 calorie diet.
† Daily Value (DV) not established.

Product Description

TravaCor provides support for the inhibitory neurotransmitter system through a unique combination of amino acids with vitamin and mineral cofactors.

The amino acid L-theanine (Suntheanine®) is included and has been widely studied for its ability to produce a calming effect and prevent over-stimulation. 5-hydroxytryptophan (5-HTP) is

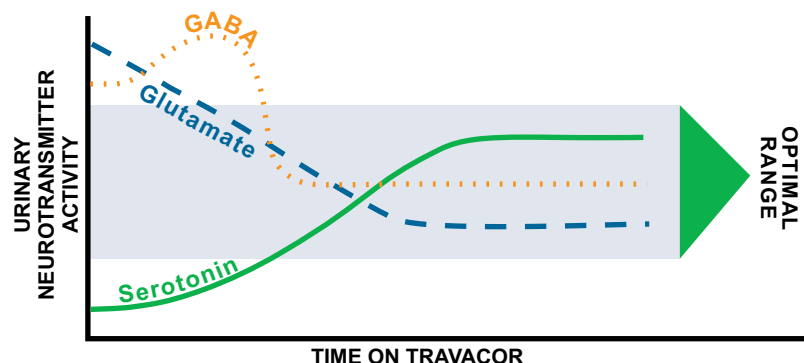

included to support the production of serotonin. Taurine acts by enhancing the effects of GABA.

TravaCor is recommended for those with difficulty falling asleep or staying asleep, highly anxious individuals and those with restlessness.

TravaCor Jr. and Neurotransmitter Function

TravaCor Jr has been formulated to restore balance to the inhibitory and excitatory neurotransmitter systems by increasing the inhibitory neurotransmitter serotonin and reducing the effects of excessive glutamate activity, thus allowing high GABA levels to decline.
